WILDLIFE MANAGEMENT AREAS AND STATE FORESTS ARE NOT JUST FOR HUNTING AND FISHING!

They have been purchased for preservation to benefit all of Florida's residents and you don't have to hunt or fish to enjoy them! The same habitat management practices that provide hunting and fishing opportunities also create opportunities for wildlife viewing. These areas provide a range of opportunities, from scenic driving routes to rugged hiking adventures. See the natural Florida that we have protected through acquisition and careful management.

GENERAL INFORMATION:

1. Anyone born on or after June 1, 1975 must have passed a Commission-approved hunter safety course prior to being issued a hunting license.
2. Division of Forestry management plans include prescribed burning most months of the year. For personal safety reasons, area users should contact the Division of Forestry for information and location of burn areas, (850) 488-1871.
3. If you have any questions about this material, please call the Florida Fish and Wildlife Conservation Commission at (850) 2653676 {(800) 955-8771 (TDD)}.

COOPERATION REQUESTED:

When you spot law violators or suspicious activities, contact your nearest Commission regional office or call 1-888-404-FWCC. You may qualify for a cash reward from the Wildlife Alert Reward Association.

Please do not discharge firearms at anything other than legal game while in a wildlife management area. Target practice and random discharge of firearms have become increasing threats to the quality of the hunting experience.

All persons hunting small game are requested to wear blaze-orange headgear and/or vests.

PLEASE DO NOT LITTER. TAKE TRASH OUT WITH YOU.

In recent years, unauthorized and uncontrolled fires have caused severe damage to area wildlife and wildlife habitats. Controlled fires are beneficial only when they are of the proper size and location, and when area conditions are suitable. UNCONTROLLED FIRES DO NOT BENEFIT WILDLIFE. Please use caution with campfires, smoking materials and vehicles to prevent damage to wildlife habitats.
